WE OPEN DOORS

‘URFIC Pro5’

COMBINING RESISTANCE, PERFORMANCE & INNOVATION

Urfic has developed their new **Pro5** range using a more technologically efficient material.

This unique material makes it possible to produce items to a higher quality at competitive prices.

This new P5 velvet uniform finish is applied to the surface, making it not only appealing to the eye but also is smooth to the touch.

As well as looking good this material is totally durable with a protection of more than 20 microns. It will not stain and is scratch resistant, keeping its excellent finish even in damp and extreme environments such as Coastal areas.

Although **guaranteed for 30 years** (salt spray tested) the durability of this product range will withstand the test of time for between 30 and 50 years.

The unique finish makes it suitable for both **internal and external** use with a choice of sleek designs making this range ideal for either commercial or domestic use.
